AMERICA'S GREAT MEN.

Selected to Grace Tablets in the Hall of Fame.—Only Thirty Received the Required Vote

New York, Oct. 18.—The election in the Hall of Fame contest was concluded today when the senate of New York university assembled and passed upon the list of eligibles submitted to that body by the committee which for the last three days has been counting the votes. The total number of names submitted to the 100 judges was 252. Though the standard of eligibility had been placed as low as 51 votes, only 30 of the nominees had reached that standard. It was the names of such nominees that were submitted to the senate, and that body, in which is vested the power of absolute and peremptory veto, on this occasion confined itself to simple confirmation of the committee's finding.

NAMES OF THE IMMORTALS.

According to this decision the following famous men were accorded a place on the tablets of the Hall of Fame:

CLEVELAND'S SELECTIONS.

Ex-President Cleveland's vote today was: Samuel Adams, Benjamin Franklin, Jay Jefferson, Lincoln, Madison, Washington. He did not vote for Monroe, but cast a scattering vote which was announced. Monroe did not poll a single vote among the class of voters known as publicists, editors and authors.

Washington was saved the honor of the first place only by the fact that Chief Justice Nichols, of Louisiana, scratched both Lincoln and Webster.

Chief Justice Fuller sent in a generous vote. He endorsed John Quincy Adams, John Adams, Samuel Adams, John C. Calhoun, Salmon P. Chase, Henry Clay, Benjamin Franklin, Patrick Henry, Andrew Jackson, John Jay, Thos. Jefferson, Lincoln, Madison, Monroe, Washington, Webster and two

HENRY YOUTSEY

FOUND GUILTY.

Jurors Fixed Punishment at Life Term in Penitentiary.

Georgetown, Ky., Oct. 20.—"We, the jury, find this defendant guilty and fix his punishment at life imprisonment."

This is the verdict returned by the twelve men who were selected to try Henry E. Youtsey, one of the principals in the murder of Wm. Goebel.

When the jury was called this morning Judge Cantrill asked: "Gentlemen, have you made a verdict?"

The foreman, R. M. McCabe, nodded his head.

"Pass up the papers to the clerk," said the judge. The sheriff passed them up and the clerk read the following verdict:

"We, the jury find the defendant guilty and fix his punishment at confinement in the penitentiary for life."

"Gentlemen is that your verdict?" asked the judge.

"It is," was the reply.

"Gentlemen, you are now finally discharged and you can call on trustees of the jury fund for your pay," said the judge to the jury.

The jury walked out and the trial was at an end. It was learned from one of the jurymen that no ballot was taken last night though it was practically agreed that a verdict of guilty would be found. This morning the vote was unanimous that he was guilty; then the degree of punishment was fixed, but on this the jury was somewhat divided, but finally agreed on the life sentence.

The defense fled their motion for an arrest of judgment and Judge Cantrill set for the motion the second day of February, and therefore Youtsey will not be sentenced till next year, if then. On the judge's motion he entered an order to have Youtsey moved to the Frankfort jail for safe keeping.

AUTOMOBILE STAGE COACHES.

To Carry Mail and Passengers Over the Mountains and Roads of Idaho.

An automobile stage line will soon be in operation in Idaho, and if it stands the test of time at least one other will be started, says the Chicago Tribune.

E. A. Readicker, who operates a stage line between Challis and Salmon City, recently purchased an automobile in New York and has been experimenting with it. He has employed it already in carrying mail and intends to buy others to carry both mail and passengers if the first does not break down every now and then in some lonely spot miles from where it can be repaired.

The trial runs have been made between Dubois and Ellis, a distance of 150 miles. The road runs through sand and dust, over hills and through the heart of the Salmon river mountain. The automobile plowed through the sand, climbed the hills and sped over the level places without a mishap at an average of ten miles an hour.

The vehicle used for the experiments is single-seated and is fitted below with a frame for carrying mail. Gasoline furnishes the driving power.

There are many difficulties to overcome before automobiles can be entirely successful on the mountain roads. Sharp rocks are apt to puncture the pneumatic tires, and it takes a tremendous driving power get over some of the roads. Moreover there are portions of Idaho in the mountains which are many miles from a habitation. If the power should give out in one of these spots the pilgrimage of 25 miles or so to a house and the wait of a day or days for relief would be far from cheerful to the passengers.

OUGHT TO BE, ANYHOW.
